

How to quickly add your pax names and numbers to your iPhone

Applies to: Mac

1. Go to the 4TMs.uk website
2. Download the **vCard File** and the **Excel File**

3. Click on the **Go to 4TMs Convert** button

4. Ensure that you have downloaded your **TM Client Details** file from TMportal

5. Click on the **Choose File** button and locate and open your **TM Client Details** file

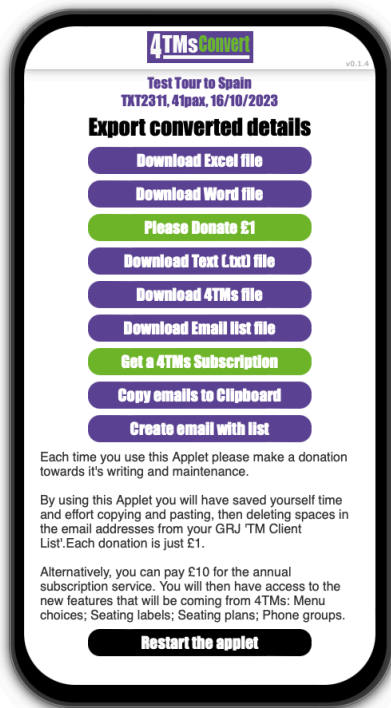

These instruction apply for users with a Mac, Excel and an iPhone.

If you have a PC you can use Excel to create the vCard file and then email the vCard file to your iPhone. You can then open the vCard on your iPhone and it should add the contacts to your iPhone [untested].

If you have a non iPhone you might be able to add the contacts to you phone by emailing the vCard file to your phone and then opening it [untested]. Let me know if it works.

- The file will be converted and the screen will change to the download options

- Click on the **Download Excel file** button

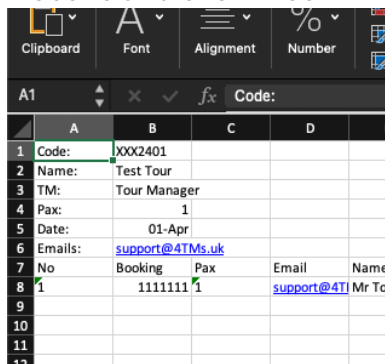

- Open the Excel File that you have just downloaded and click in the box to the left of the column letters and above the row numbers. In the picture below there is a green triangle where you click. This will select all the cells in the spreadsheet. Or do **Select All** [*command + A*]

The screenshot shows an Excel spreadsheet with the following data:

	A	B	C	D	E
1	Code:	TXT2311			
2	Name:	Test Tour to Spain			
3	TM:	Mrs June Smith			
4	Pax:	41			
5	Date:	16/10/2023			
6	Emails:	thejoneshalls@hotmail.co.uk,johngreen467@talkt			
7	No	Booking	Pax	Email	Name
8	1	1830353	1	thejoneshall:	Mrs Marie
9	2	1830353	2	thejoneshall:	Mr Philip J
10	3	1676172	1	johngreen46	Mr John G
11	4	1543131	1	royblack@ta	Mr Roy Bla
12	5	1543131	2	royblack@ta	Mrs Joan B
13	6	1339811	1	suejelly7@y	Mrs Susan
14	7	1338358	1	mary@fame	Mrs Mary
15	8	1338358	2	mary@fame	Mr Stephe
16	9	1337116	1	celian7895@	Mr Ian Par
17	10	1337116	2	celian7895@	Mrs Celia f

- Copy** the cells [*command + C*]

- Open the **4TMsVCardCreator.v1.xlsx** file that you downloaded from the 4TMs.uk website and click in cell **A1**

- Paste** the cells that you copied [*command + V*]
- Move to the second sheet of the Workbook by clicking on **vCardCreator** at the bottom left.

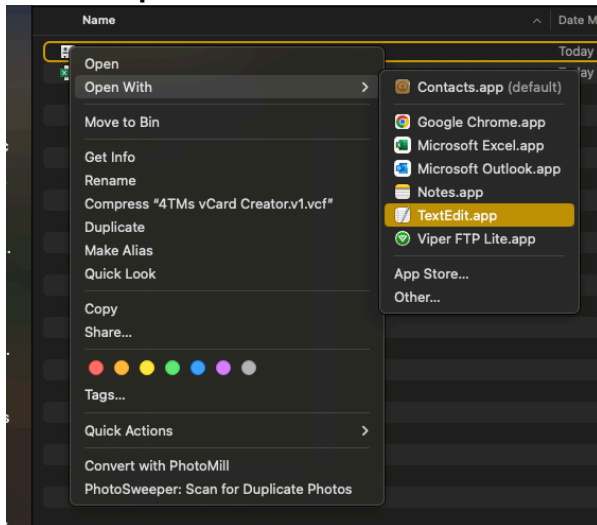

- In the vCardCreator sheet select the text that appears in **column A**. The easiest way to do this is to click in the first cell and then scroll down to the last cell with text, and then hold the shift key down and click in that last cell.

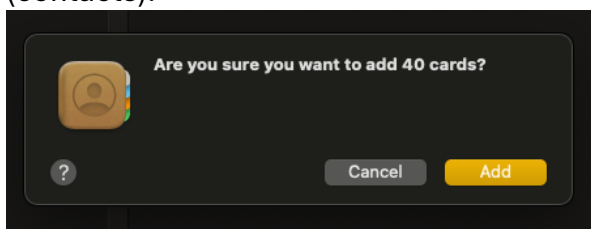

- Copy** the cells [*command + C*]

- Right-click [if you use a trackpad not a mouse then click with two fingers] on the **4TMsvCardCreator.v1.vcf** file that you downloaded from the 4TMs.uk website and choose **Open with ... TextEdit**.

- Paste** the text that you just copied from Excel [*command + V*]
- Close the **4TMsvCardCreator.v1.vcf** file.
- Now double-click the **4TMsvCardCreator.v1.vcf** file. It will automatically open the Contacts application on your Mac and ask you if you want to add the cards (contacts).

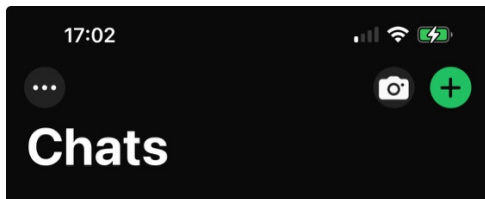

- Click Add. The client details will now be added to your Contacts. They should automatically add to your iPhone. You will see that the names are added with the tour code as the forename. This allows for easy sorting, finding and deleting.

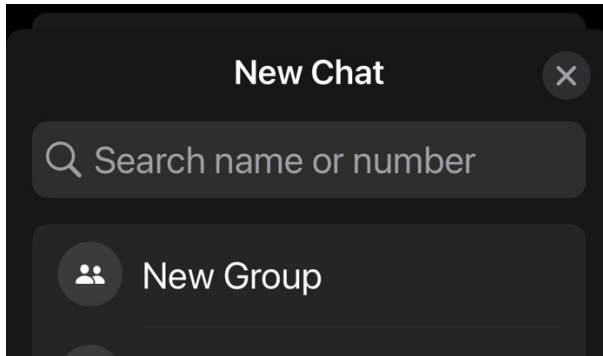

You may need to sort by first name to see them grouped together [using Settings].

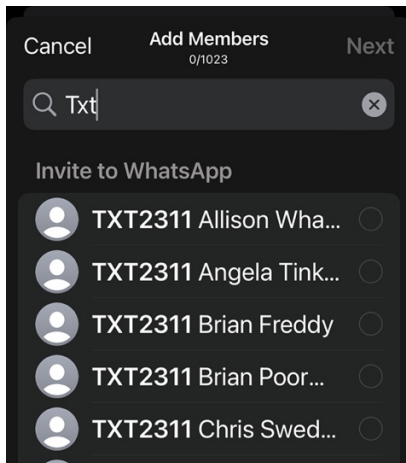

19. In WhatsApp on the phone tap the + button

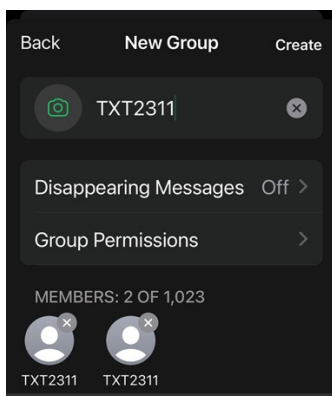

20. Click on the **New Group** button

21. Start typing the tour code and the contacts you have just added will appear.

22. Click **Next** and name your **WhatsApp** group

23. Click **Create**
